## SPEYSIDE DISTILLING

This malt provides the classic Speyside character associated with this iconic distilling area in the Scottish Highlands. This Scottish two row barley is slowly grown and malted to produce a malt with the absolute DNA of some of the best Speyside single malts.

This high quality malt produces a truly complex spirit that is packed full of the flavours and character that are recognised as the heart & soul of some of the finest Scotch whiskies produced within the iconic Speyside area of Scotland.
